CLASSIC METAL COATING L.L.C.

## ABOUT US

Being an ISO-accredited corporation that places the utmost importance on quality, perfection, and promptness has been the foundation of our company's reputation. Our employees adhere to our strict quality requirements as skilled craftsmen. Maintaining unwavering quality necessitates careful consideration of every little aspect. We appreciate long-term business partnerships based on mutual confidence between partners, principals, and employees that result in a win-win situation. We also respect transparency, dependability, and responsibility. Looking ahead, we seize every opportunity to further its growth as a worldwide organization and contribute to the socioeconomic development of the UAE and its surrounding countries.

## METAL COATING IN SHARJAH

Many of the products we use are meant to be used generally indoors or outdoors in dry settings for elaborate reasons, where they are unlikely to be consumed. To make these products appealing to the buyer without losing their original metallic appearance, a thin layer of nickel, gold, silver, collectible, and other materials is artificially applied to them. It is often believed that this layer, called electroplating, prevents rust and consumption. Our electro-plating parts are most commonly used inside shopping malls, marked stores, hotels, fit-outs, gems, sheets, claddings, handrails, outlines, corners, avoidances, stands, channels, profiles, and so forth.
