

INVERTER BATTERY

Microtek **Inverter Batteries** are designed with ADC - Advanced Dura Core technology for reliable power backup. It is built to provide high durability and prolonged performance without compromising on the battery life. ADC also ensures quicker power availability and reduced charging time. Microtek batteries are reliable for uninterrupted power supply for residential and commercial purpose.

RANGE OF MICROTEK INVERTER BATTERIES

Dura Prime+ , Dura Strong, Dura Prime, Dura Long, Dura Smart, Dura Max

Enquire Now

Dura SMART

Dura SMART a series of Microtek inverter batteries are made for enhancing durability, performance, and efficiency. This technology is designed to improve the battery's ability to handle deep discharges, ensuring longevity and reliability in various at residential and commercial places.
