ABOUT ENERNEW

The demand for clean energy is surging among large commercial and industrial (C&I) entities. In response, Enernew has introduced the Enernew Solar Park with a mission to achieve net zero carbon emissions. Our state-of-the-art park provides a seamless opportunity for customers to establish their own solar power plants for captive consumption. By offering access to captive open-access power at significantly reduced electricity costs, we ensure an efficient and cost-effective transition to renewable energy.

OUR HISTORY

Sriram Cables operates from a cutting-edge manufacturing facility in Chopanki Industrial Area, Bhiwadi (Rajasthan), strategically located near Delhi. Spanning 40,000 square meters, our ISO 9001 and ISO 14001 certified facility houses state-of-the-art machinery capable of producing a wide array of cables, including Low Voltage and High Voltage cables up to 132 KV Voltage Grade.

We specialize in HT/LT-XLPE/PVC Power, Control, Telecom, Signalling, Axle Counter, Aerial Bunched, Instrumentation, Flexible, Mining, Fire Retardant Low Smoke, and HR Insulated Cables. These find applications across diverse sectors such as Railways, Telecommunications, Automobiles, Power Generation, Steel Plants, Chemicals, Fertilizers, Space Research, Nuclear Power, Petrochemicals, Electronics, Defence, and more.
