In the heart of **Birmingham**, a city known for its energy, innovation, and cultural vibrance, many people lead fast-paced lives filled with ambition and endless responsibilities. The Unseen Influence of Negative Energy

Negative energy is not always visible, yet its presence can be profoundly felt. According to Vedic philosophy and spiritual science, such disturbances arise from imbalanced planetary energies, the presence of evil influences, or accumulated vibrations from stress, envy, and conflict. Over time, these energies can block personal growth, weaken mental stability, and cause emotional exhaustion.

Master Sanjivram Ji, a globally respected astrologer and spiritual healer, helps individuals in **Birmingham** identify and clear these dark energies through his specialized **Negative Energy Removal Services** — restoring balance, clarity, and peace of mind.

Understanding the Source – Where Does Negative Energy Come From?

Negative energy can originate from various sources — both internal and external.

- **Emotional turmoil:** Anger, jealousy, or prolonged sadness can lower our spiritual vibrations.
- **Envious surroundings:** Interactions with people harboring jealousy or ill intentions can transfer harmful energies.
- **Curses and evil influences:** In certain cases, deliberate negative rituals or black magic can attach dark forces to a person or place.
- **Planetary misalignment:** Malefic planetary positions in the birth chart may amplify emotional and physical struggles.
- **Environmental energies:** Cluttered homes, unbalanced feng shui, or spiritually neglected spaces can trap negative vibrations.

Through precise astrological analysis and spiritual insight, **Master Sanjivram Ji** identifies these sources and applies tailored remedies that cleanse and protect both the body and environment from negativity.
