

Vivan Industries: Your Trusted Thermocol Insulation Supplier

Leading provider of premium thermocol insulation solutions across India,
delivering excellence in thermal protection and energy efficiency.

Why Thermocol Insulation Matters

Superior Thermal Performance

Thermocol (Expanded Polystyrene - EPS) delivers exceptional thermal resistance, effectively minimising heat transfer in buildings, cold storage facilities, and industrial applications. Its cellular structure creates an effective barrier against temperature fluctuations.

Smart Investment Choice

Remarkably lightweight yet robust, thermocol insulation combines moisture resistance with cost-effectiveness. Compared to alternatives like PUF, it offers better value whilst maintaining superior performance standards.

Energy Conservation

Reduces cooling costs by up to 40%

Noise Reduction

Excellent acoustic insulation properties

Temperature Protection

Safeguards temperature-sensitive goods

Vivan Industries Product Range & Quality

1

Comprehensive Product Range

Extensive variety of thermocol insulation sheets and precision-engineered pipe sections, specifically designed for industrial refrigeration, cold storage facilities, and protective packaging applications.

2

Customisable Specifications

Insulation sheets available in multiple thicknesses ranging from 10mm to 300mm, with fully customisable dimensions to meet your exact project requirements and specifications.

3

Premium Manufacturing Standards

Every product manufactured using premium-grade raw materials, ensuring exceptional durability, consistent dimensional stability, and long-lasting thermal performance across all applications.

Quality Assurance

- Rigorous testing protocols
- IS:2062 compliant materials
- Zero-defect manufacturing

Application Versatility

- Cold storage insulation
- Pipe section wrapping
- Packaging solutions

Technical Support

- Expert consultation available
- Custom design assistance
- Installation guidance

Manufacturing Excellence & Market Leadership

Industry Heritage

Drawing inspiration from industry pioneers like EPACK India, established since 1989, we uphold the highest standards of thermocol manufacturing excellence and innovation.

Sustainable Future

Committed to providing fully recyclable, environmentally responsible insulation solutions that actively support energy efficiency and environmental protection initiatives.

3

Advanced Technology

Vivan Industries employs cutting-edge manufacturing technology coupled with stringent quality control measures to consistently meet and exceed international standards.

35+

Years of Expertise

Industry experience in thermal insulation

500+

Projects Completed

Successful installations across India

99.8%

Client Satisfaction

Consistently high approval ratings

Partner with Vivan Industries for Your Insulation Needs

Your Complete Insulation Partner

Experience the Vivan Industries advantage with comprehensive support throughout your project journey. From initial consultation to final installation, we provide tailored solutions that perfectly match your requirements.

01

Expert Consultation

Detailed assessment of your insulation requirements

02

Customised Solutions

Tailored products designed for optimal performance

03

Timely Delivery

Reliable logistics ensuring on-time project completion

Cold Storage

Optimal temperature maintenance for perishable goods

Food Preservation

Extended shelf life and quality protection

Industrial Refrigeration

Heavy-duty insulation for large-scale operations

Building Insulation

Energy-efficient solutions for commercial structures

 **Ready to enhance your energy efficiency?** Contact Vivan Industries today to discover how our trusted thermocol insulation solutions can protect your products, reduce operational costs, and deliver lasting value to your business.
